WOULS SORP AND THE LIQUOR IRAIFIC.

A lady much interest d in volsuffrage for women and at the sime time a temperance worker has oal "d our attention to the following facts rought out by a New York newspaper These facts are certain's startling and are opposed to women suffrage
It is stated that a the Christian Advo-

cate the statement is made that in the cate of Philadelphia t ere are 8 083 per sons engaged in the ret il liquor business, and of that number 3 69 are women So far as the statisti s in the cities in

New 1 ork State have leen within reach, I have found that the proportion of women engaged in t cliquor traffic is is about the same as in Philadelphia. In 1 100 applications for iquor licenses in Boston 401 women a c named as co-partners. The listing ten in three Bos newspapers and is not ve complete Statistics show that while the popula-tion of the United States has increased but "Oper cent in the last two decades, the number of female rinkers and drug-

takers has increased all per cent In view of these f cts does not the theory that suffrage extended to all women would work fo the prohibition of liquor selling seem fal acious

The laws are stricte ough The trouble is that they are not inforced and the granting of suffrage to women does not mean auxthing so fara their enforcement goes The ballot is imply a piece of paper valueless excep for the force that hes behind it and that force is the powerto enforce its provision: by brute strength

We have seen in so called prohibitio states that prohibitor does not prohibit And we have seen iso in Wyoming where woman suffrage has obtained for thenty five years that the laws relating to the sale of intoxicating liquo sare very law that gambling is sllowed by his and that not a single act o legislation aimed at the betterment of t e human race has bees through woman influence
